Our goal is to offer high-quality, natural, and organic skincare products without the unnecessary luxury price tags. Our Multitasking products are designed to streamline your routine while delivering real, effective skincare. We don't use harmful ingredients like parabens, phenoxethanol, phthalates, propylene glycol, DEA,MEA,BHT, TEA etc. Our products are waterless & preservative free.

OUR COMMITMENT

At Sukaya, we prioritize the health of your skin while making your routine as easy, effective and enjoyable as possible. At the heart of our formulas are nature's most refined nutrients – untouched by synthetics and chosen for their potency and purity. Each application becomes more than skincare: it is a ritual of restoration, where vitality, balance, and timeless radiance are revealed. Most skincare products are 80% water but ours is 0%. That means our products are packed with 5x more vitamins, antioxidants, and essential fatty acids – giving your skin pure nourishment with less product, less waste, and more results.

AROMATHERAPY & SKINCARE

Beyond simplicity, we also aim to incorporate aromatherapy into our products to enhance both your skincare regimen and overall well-being. Our founder, who has completed an Aromatherapy Practitioner Certificate including Specialist Certificate for Rejuvenating Skincare at the Australian College of Aromatherapy, understands the delicate balance of essential oils in skincare. Each essential oil is chosen with care, in precise & safe amounts, to deliver its unique benefits – nourishing your skin while uplifting your senses. Our facial products contain less than 1% essential oils, while body products use up to 2%. This careful balance ensures every formula is both safe and effective – delivering benefits without the risk of skin sensitisation.
